## 13 Glossary of terms

### Pension Sharing Order (PSO)

An order issued by a Court instructing how much a member's ex-spouse is entitled to receive from their pension fund.

### Income Payment Order

An Income Payment Order (IPO) is a court order to redirect some or all of your income under a bankruptcy to the Official Receiver or appointed Trustee.

### Earmarking Order

An Earmarking Order, or Attachment Order, is different to a Pension Sharing order in that it is attached to the scheme and requires the scheme to pay a proportion of the benefits at retirement to the claiming party. Where a Pension Sharing Order will offer a 'clean break', and Earmarking Order is a type of maintenance order.

### Benefit Crystallisation Event (BCE)

An event where the administrator of your pension scheme is required to check whether your benefits exceed the Lifetime Allowance, for example when you start to take benefits from your plan. Funds over the Lifetime Allowance will be subject to a tax charge.

### Crystallise

The process of allocating all or part of your pension fund to provide you with benefits.

### Lifetime Allowance (LTA)

The total amount you can have across all UK Registered pension schemes without incurring the Lifetime Allowance Tax Charge (any additional tax charges when a BCE is carried out. Any funds in excess of the LTA are subject to a tax charge at the point a BCE is completed).

### Lifetime Allowance Enhancement Factors

Some members are entitled to a higher LTA, for example if they have received a pension credit from a PSO. An application must be submitted to HMRC in order to get an enhancement factor.

### Flexi-Access Drawdown (FAD)

This is a flexible way of taking your benefits from your plan. You can take your usual PCLS entitlement and choose the level and frequency of income you wish to take without restrictions. The income will be taxed at your marginal rate and can vary from no income to taking all of your pension fund in one go.

### Pension Commencement Lump Sum (PCLS)

This is the amount you can take from your pension fund tax-free.

### UFPLS

An uncrystallised funds pension lump sum (UFPLS) is a way of taking an ad hoc sum from your SIPP. You have to be at least 55 years old and still have funds that are designated to drawdown. 25% of each lump sum is tax-free, and the remaining 75% is subject to your marginal rate of income tax.

### Small pots

If your plan is worth less than £10,000, you can withdraw the whole amount under 'small pot lump sum' rules provided you are over 55; the whole value of your plan is withdrawn; and you have not used these rules more than twice previously. Small pots are not tested against the lifetime allowance. If the payment made from uncrystallised funds, 25% is tax free and the remaining 75% is subject to your marginal rate of income tax. If the payment is made from crystallised funds, the whole amount is taxed at your marginal rate.
